

# MARLENE TSENG YU

## FORCES OF NATURE

The Glacier Melting Series started in 1965. It has continued through 2008, for it is my favorite subject. Without my realizing it, the series reflects what has become one of the most important issues today, as human lifestyles and habits increase global warming and cause glaciers to melt rapidly. I hope through my art to convey the urgent message – earth is in danger, please let us protect it together.

Gründerin und Kuratorin der  
Rainforest Art Foundation
